ABSTRACT

Responses to a questionnaire sent in December 1977 to members of the American Association of Community and Junior Colleges' International/Intercultural Consortium (IIC) comprise this report on summer 1978 programs offered overseas by community colleges. The programs are listed alphabetically by world region and country. Program listings contain information on name of program, countries to be visited, travel dates, academic credit availability and cost per credit hour, program costs, application deadline, number of participants accepted, special requirements, the person in charge of the program, and the sponsoring institution. All IIC programs at any college are open to students from other IIC member colleges. Overseas programs cover such areas as European (fine arts, epicurean field study, music, photography, broadcasting, humanities, languages, culture and civilization), Latin American (language, civilization and culture, art, anthropology), Japanese (art), and West African studies. A limited number of domestic travel-study programs are also included. (TR)

FOREWORD

The following pages represent the response to a questionnaire sent out in December to members of the AACJC International/ Intercultural Consortium about summer programs offered by colleges overseas.

The programs are listed alphabetically by world region and country. Multi-country programs are listed first in each region.

The programs at the Los Angeles Community College District and those at Rockland Community College appear at the back of the booklet.

Orange Coast College also listed five programs which they offer in the summer but which are not overseas. These are also cited in the back of the booklet.

All of the programs at the IIC colleges are open to other IIC member colleges' students. Anyone interested in any of the programs should contact the person responsible for the particular program and not the IIC Washington office.

A special thank you to the people who took the time to fill out and return the questionnaire so that we are able to share that information with others.

LOS ANGELES COMMUNITY COLLEGES
NEW DIMENSIONS
DESCRIPTION OF 1978 SUMMER TRAVEL/STUDY PROGRAMS
January 3, 1978

Information

This new program has been developed to enhance the existing curricula of the Los Angeles Community Colleges by offering wider avenues of non-traditional educational experiences and to provide participating students and teachers opportunities to visit other areas of California, United States and/or foreign countries. Ten (10) travel/study courses in such locations as Europe, Mexico, Bali, Scandinavia, and various California environs have been recommended to the Board of Trustees by the Committee on International Education.

Schedule

Each class will be of approximately four (4) to six (6) weeks duration and can be offered between June 19 and September 11, 1978. Orientation meetings will be held during the Spring of 1978.

Costs

Six (6) of the courses will be offered for credit; four (4) will be non-credit community service offerings. There will be no tuition charges for credit courses since public California community colleges are tuition-free institutions. A modest fee of approximately $50 will be charged for non-credit offerings to cover the costs of instruct guides and program administration.

Students will be expected to pay transportation, room, meal, admission, and miscellaneous expenses. All faculty expenses will be absorbed by organizations contracted with for travel and land arrangements. A minimum of 25 students will be required for each class.

Class Requirements

The credit courses will involve lectures, outside reading, examinations, and other assignments, in addition to direct participation and observation. Time spent in study will approximate that time spent in a traditional college-based summer school classroom situation. Non-credit courses will include lectures and presentations, emphasizing direct experience in the situations visited. Courses are either credit or non-credit. There will be no intermixing. In all cases, students will register at the college offering the particular class.

Travel Organizations

Appropriate travel organizations will be invited to develop contract proposals for one or more of the offerings. They will be expected to include transportation and land travel costs, meal and lodging expense, and admission fees to museums, theaters, historical sites and the like. They will also include insurance expenses, since the Community College District must be excused from any liabilities arising from the program. Once travel organizations have been accepted, students will make individual arrangements with the organizations.

Deadline

The deadline for admission to these programs is June 1, 1978.

Administration and Promotion

The program will be administered and publicized by the Office for New Dimensions headed by Dr. Wm. G. Thomas. Brochures, flyers, and media advertising will be incorporated.

The following describes the ten (10) individual offerings: (More specific information may be obtained through contacting the instructor in charge)
